5	How can I prepare for job interviews if I find social interactions challenging?	Practice is crucial. Rehearse answers to common interview questions, focusing on clear and concise delivery. Consider asking the interviewer if you can receive questions in advance. Practice mock interviews with a trusted friend, mentor, or career coach. You can also discuss your communication style and any necessary accommodations beforehand.
6	What resources are available to help autistic individuals find and succeed in their careers?	Many organizations specialize in supporting autistic adults in the workforce. Look for neurodiversity employment programs, autism advocacy groups, vocational rehabilitation services, and university disability support offices. These resources can offer job coaching, resume building, interview preparation, and employer connections.
7	Should I disclose my autism to a potential employer, and if so, when?	This is a personal decision with no single right answer. Some find disclosure helps them request accommodations and build trust. Others prefer to focus on demonstrating their skills first and disclose if and when accommodations are needed. If you choose to disclose, it's often best done after you've made a good impression or once an offer is extended, but before you start the role.
